

## Job Description

<b>Job Title:</b>	Aircraft Technical Cleaner
<b>Department:</b>	Aircraft Maintenance
<b>Team:</b>	Engineering
<b>Reports to:</b>	Hangar Crew Chief
<b>Location:</b>	Teesside

### Summary

This is a role within the UK CAA and EASA Part 145 approved aircraft maintenance functional area. Aircraft Technical Cleaners perform deep cleaning functions of aircraft as required.

### Responsibilities

As an Aircraft Technical Cleaner, you will be required to carry out cleaning of aircraft and aircraft components, including but not limited to;

- Aircraft exteriors;
- Flight controls;
- Wheel well areas;
- Seat tracks;
- Cabin interiors;
- EWIS and electrical husbandry;
- Assisting with other WASL departments as required;
- Actively support and promote a positive safety learning culture through the reporting of occurrences and potential hazards and by adopting continuous improvement and human factors principles with their work;

### Requirements

- Previous technical cleaning experience desirable but full training and development will be provided;
- Be able to demonstrate an organised approach to daily job tasks;
- Knowledge of maintenance standards;
- Knowledge and ability to use aircraft maintenance data;
- Initial Human Factors (HF) training;
- Fuel Tank Safety (FTS) training;
- Electrical Wiring Interconnect System (EWIS) training;
- English Language proficiency (Written & Spoken);

The post holder will be expected to carry out any other duties allocated that are appropriate to the grade and nature of this post. Job descriptions will be reviewed and discussed annually in line with the Staff Appraisal Scheme.

WASL are committed to equal opportunities and have an Equality and Diversity policy in accordance with legislation and all appointments are subject to pre-employment checks including references and a Disclosure and Barring Service check.
