

Job Title: Aircraft Trimmer
Company: Willis Aviation Services Limited
Location: Teesside, UK
Department: Operations
Reports to: Hangar Crew Chief

Summary:

This is a role within the UK CAA and EASA Part 145 approved aircraft maintenance functional area. Aircraft trimmers perform cabin and interior repair, modification, and maintenance work under supervision to ensure that all cabins and other areas inside an airplane are well maintained.

Responsibilities:

- Aircraft carpet, galley, and toilet flooring replacement.
- Cabin side wall touch-ups/repairs.
- Tedlar repairs.
- Soft furnishing repairs.
- Seat cover replacement.
- Tray table replacement.
- Seat pocket repairs.
- Sourcing of parts/materials.
- Work on IAW-approved maintenance data and design drawings.
- Record any work carried out within the issued work pack or operator Tech Log.
- Actively support and promote a positive safety learning culture through the reporting of occurrences and potential hazards and by adopting continuous improvement and human factors principles with their work.

Qualifications / Requirements:

- Be able to demonstrate an organized approach to daily job tasks;
- Knowledge of maintenance standards.
- Knowledge and ability to use aircraft maintenance data.
- Initial Human Factors (HF) training.
- Fuel Tank Safety (FTS) training.
- Electrical Wiring Interconnect System (EWIS) training.
- English Language proficiency (written & spoken)

Travel / Misc.:

- None.
